

COLON SUPPORT

Soothing Colon Formula supports normal colon function through nutritional supplementation.

Many people experience digestive disorders ranging from the occasional upset stomach, GERD (Gastro Esophageal Reflux Disease), heartburn, IBS, chronic diarrhea, Crohn's Disease or a more serious and life-threatening problem, colorectal cancer.

Irritable bowel syndrome (IBS) is often confused with Inflammatory Bowel Disease (IBD).

85 percent of the patients were found to have nutritional deficiencies.

TREATMENT OPTIONS

- MULTIPLE MEDICATIONS
- DIET RESTRICTIONS
- SURGICAL PROCEDURES
- **Nutritional supplements play a role in supporting colon function**

Some of the most common problems occurring in the digestive tract are:

- GERD (Gastro Esophageal Reflux Disease)
- ULCERS
- IBS
- IBD
- CROHN'S DISEASE
- SPASTIC COLON

Nutritional Supplementation is VITALLY IMPORTANT.

In one study of 270 patients with Crohn's Disease, 85 percent of the patients were found to have nutritional deficiencies. Not only does the condition itself lead to nutrient deficiency, many of the medications used to treat Crohn's Disease deplete nutrients from the body.

BodySaver™ LLC has developed a combination of ingredients in **Soothing Colon Formula** that provide certain levels of vitamins, minerals and herbal supplements.

Some studies and research have shown natural herbal supplements (like **Cat's Claw**) have been used for hundreds of years to support the immune system and normal digestive function.

Native Americans used traditional recipes containing **Slippery Elm** to soothe irritated digestive systems.

KEY INGREDIENT - Coconut Oil

Since the 1980s, researchers have demonstrated the benefits of coconut oil for people with digestive problems, including Crohn's Disease.

The ingredients in this Dietary Supplement are intended to support normal colon function and are not intended to treat Crohn's Disease or any other intestinal tract medical condition.

L-Glutamine	15 mg	*

*Daily Value (DV) Not Established

“ I have had Crohn's Disease for over 10 years, with severe symptoms of diarrhea, weight loss and other digestive problems over the last 9 months. I have tried various dietary supplements but have found the Soothing Colon Formula by BodySaver™ to be excellent. After about ten days of taking the product, my colon has calmed down and I have been symptom free since. ”

– Donald C, Tampa, FL
